

## Author index

- Abdul-Hadi, N.H., 415  
Ajewole, O., 107  
Akintoye, A.S., 107  
Al-Tabtabai, H., 19  
Barrett, P., 321  
Baum, A., 272  
Bennett, J., 533  
Betts, M., 511  
Bright, K., 203  
Davidson, C.H., 343  
Diekmann, J.E., 19  
Drew, D.S., 227  
Fellows, R.F., 137  
Finch, E., 5  
Gardiner, P.D., 459  
Hancher, D.E., 117  
Howell, G.A., 249  
Hutchinson, K., 89  
Janssen, J., 361  
Kagiri, M., 153  
Kaplinski, O., 81  
Langford, D., 179  
Laufer, A., 31, 249  
Lavers, A., 181, 534  
Mak, S., 303  
Meszek, W., 81  
Ming, Yu Shi, 537  
Mohsini, R.A., 343  
Murdoch, J., 273  
Naamani, Z., 479  
Newton, S., 431  
Nicholson, M.P., 479  
Nkado, R.N., 489  
Odusote, O.O., 137  
Ofori, G., 369, 511  
Olomolaiye, P., 107  
Prince, M.W., 93  
Quah, L.K., 263  
Raftery, J., 271, 303, 363  
Ranasinghe, M., 45, 277  
Rosenfeld, Y., 249  
Russell, A.D., 45, 117, 185, 277  
Scott, D., 153, 362  
Shash, A.A., 415  
Simmons, J.E.L., 459  
Skibniewski, M.J., 117  
Skitmore, R.M., 227, 397, 452  
Symes, M., 451  
Winch, G., 364  
Yizhe, Tong, 69  
Youjie, Lu, 69

## Subject index

- ability measurement, motivation, organization, professionals, 321
- appraisal, risk, green buildings, environmental assessment, 5
- architectural management, design costs, organization, 479
- bias, fallacy, risk, uncertainty, estimating, forecasting, heuristic, 303
- bid variability, bidding performance, competitive bidding, 227
- bidding, construction, Saudi Arabia, mark-up, 415
- bidding performance, competitive bidding, bid variability, 227
- bidding strategies, unbalanced bidding, cash flow, operations research, 69
- building defects, building surveying, computer based teaching, expert systems, 203
- building process, project performance, regression analysis, building procurement, 343
- building procurement, building process, project performance, regression analysis, 343
- building surveying, computer based teaching, expert systems, building defects, 203
- cash flow, forecasts, project type, regression, cross validation, 397
- cash flow, operations research, bidding strategies, unbalanced bidding, 69
- change, client, project management, strategy, conflict, 459
- client, conflicts, construction, decision making, interruptions, planning, project, uncertainty, 31
- client, project management, environment, policy, control, objectives, 369
- client, project management, strategy, conflict, change, 459
- clients, tendering, resources, project selection decisions, contractors, 137
- competitive advantage, construction enterprises, strategic planning, 511
- competitive bidding, bid variability, bidding performance, 227
- computer application, decision-making, construction contracts, contractor prequalification, 185
- computer assistance, construction techniques, developing countries, 153
- computer based teaching, expert systems, building defects, building surveying, 203
- conflict, change, client, project management, strategy, 459
- conflicts, construction, decision making, interruptions, planning, project, uncertainty, client, 31
- construction, decision making, interruptions, planning, project, uncertainty, client, conflicts, 31
- construction, Saudi Arabia, mark-up, bidding, 415
- construction contracts, owners, decision-making, contractor prequalification, contractor qualification, 117
- construction contracts, contractor prequalification, computer application, decision-making, 185
- construction control, construction methods, quality circles, planning, project management, supervision, systems analysis, 249
- construction enterprises, strategic planning, competitive advantage, 511
- construction methods, quality circles, planning, project management, supervision, systems analysis, construction control, 249

- construction techniques, developing countries, computer assistance, 153
- construction time, planning, prediction, model, information system, 489
- contractor prequalification, contractor qualification, construction contracts, owners, decision-making, 117
- contractor prequalification, computer application, decision-making, construction contracts, 185
- contractor qualification, construction contracts, owners, decision-making, contractor prequalification, 117
- contractors, clients, tendering, resources, project selection decisions, 137
- control, objectives, client, project management, environment, policy, 369
- cost control, project management, project control, forecasting, Social Judgement Theory, 19
- cost estimating, simulation, risk analysis, risk exposure, 431
- cost information, quantity surveyors, Nigeria, 107
- cross validation, cash flow, forecasts, project type, regression, 397
- decision making, interruptions, planning, project, uncertainty, client, conflicts, construction, 31
- decision-making, construction contracts, contractor prequalification, computer application, 185
- decision-making, contractor prequalification, contractor qualification, construction contracts, owners, 117
- design costs, organization, architectural management, 479
- developing countries, computer assistance, construction techniques, 153
- economic risk quantification, large engineering project, probability analysis, moment analysis, Pearson distributions, 277
- economic risk quantification, large engineering projects, probability analysis, Monte Carlo simulation, validation, 45
- environment, policy, control, objectives, client, project management, 369
- environment, psychological type, perceptions, strategy, 93
- environmental assessment, appraisal, risk, green buildings, 5
- estimating, forecasting, heuristic bias, fallacy, risk, uncertainty, 303
- expert systems, building defects, building surveying, computer based teacher, 203
- fallacy, risk, uncertainty, estimating, forecasting, heuristic, bias, 303
- forecasting, heuristic, bias, fallacy, risk, uncertainty, estimating, 303
- forecasting, Social Judgement Theory, cost control, project management, project control, 19
- forecasts, project type, regression, cross validation, cash flow, 397
- green buildings, environmental assessment, appraisal, risk, 5
- heuristic, bias, fallacy, risk, uncertainty, estimating, forecasting, 303
- information system, construction time, planning, prediction, model, 489
- interruptions, planning, project, uncertainty, client, conflicts, construction, decision making, 31
- large engineering projects, probability analysis, moment analysis, Pearson distributions, economic risk quantification, 277
- large engineering projects, probability analysis, Monte Carlo simulation, validation, economic risk quantification, 45
- mark-up, bidding, construction, Saudi Arabia, 415
- model, information system, construction time, planning, prediction, 489

- moment analysis, Pearson distributions, economic risk quantification, large engineering projects, probability analysis, 277
- Monte Carlo simulation, validation, economic risk quantification, large engineering projects, probability analysis, 45
- motivation, organization, professionals, ability measurements, 321
- new build work, risks, tender variability, refurbishment work, 263
- Nigeria, cost information, quantity surveyors, 107
- objectives, client, project management, environment, policy, control, 369
- operations research, bidding strategies, unbalanced bidding, cash flow, 69
- organization, professionals, ability measurement, motivation, 321
- organization, architectural management, design costs, 479
- owners, decision-making, contractor pre-qualification, contractor qualification, construction contracts, 117
- Pearson distributions, economic risk quantification, large engineering projects, probability analysis, moment analysis, 277
- perceptions, strategy, environment, psychological type, 93
- planning, prediction, model, information system, construction time, 489
- planning, project, uncertainty, client, conflicts, construction, decision making, interruptions, 31
- planning, project management, supervision, systems analysis, construction control, construction methods, quality circles, 249
- policy, control, objectives, client, project management, environment, 369
- prediction, model, information system, construction time, planning, 489
- probability analysis, Monte Carlo simulation, validation, economic risk quantification, large engineering projects, 45
- probability analysis, moment analysis, Pearson distributions, economic risk quantification, large engineering projects, 277
- professionals, ability measurement, motivation, organization, 321
- project, uncertainty, client, conflicts, construction, decision making, interruptions, planning, 31
- project management, environment, policy, control, objectives, client, 369
- project control, forecasting, Social Judgement Theory, cost control, project management, 19
- project management, strategy, conflict, change, client, 459
- project management, supervision, systems analysis, construction control, construction methods, quality circles, planning, 249
- project management, project control, forecasting, Social Judgement Theory, cost control, 19
- project performance, regression analysis, building procurement, building process, 343
- project selection decisions, contractors, clients, tendering, resources, 137
- project type, regression, cross validation, cash flow, forecasts, 397
- psychological type, perceptions, strategy, environment, 93
- quality circles, planning, project management, supervision, systems analysis, construction control, construction methods, 249
- quantity surveyors, Nigeria, cost information, 107
- refurbishment work, new build work, risks, tender variability, 263
- regression, cross validation, cash flow, forecasts, project type, 397
- regression analysis, building procurement, building process, project performance, 343
- resources, project selection decisions, contractors, clients, tendering, 137

- risk, uncertainty, estimating, forecasting, heuristic, bias, fallacy, 303
- risk, green buildings, environmental assessment, appraisal, 5
- risk analysis, risk exposure, cost estimating, simulation, 431
- risk exposure, cost estimating, simulation, risk analysis, 431
- risks, tender variability, refurbishment work, new build work, 263
- Saudi Arabia, mark-up, bidding, construction, 415
- simulation, risk analysis, risk exposure, cost estimating, 431
- Social Judgement Theory, cost control, project management, project control, forecasting, 19
- strategic planning, competitive advantage, construction enterprises, 511
- strategy, conflict, change, client, project management, 459
- strategy, environment, psychological type, perceptions, 93
- supervision, systems analysis, construction control, construction methods, quality circles, planning, project management, 249
- systems analysis, construction control, construction methods, quality circle, planning, project management, supervision, 249
- tender variability, refurbishment work, new build work, risks, 263
- tendering, resources, project selection decisions, contractors, clients, 137
- unbalanced bidding, cash flow, operations research, bidding strategies, 69
- uncertainty, estimating, forecasting, heuristic, bias, fallacy, risk, 303
- uncertainty, client, conflicts, construction, decision making, interruptions, planning, project, 31
- validation, economic risk quantification, large engineering projects, probability analysis, Monte Carlo simulation, 45
